

INTRODUCING HIGH RESOLUTION AT LOW RESOLUTION PRICES

THE AED1024 COLOR GRAPHICS TERMINAL

Continuing to provide the marketplace with quality, high resolution color graphics, AED announces the new AED1024 Color Graphics Terminal.

Attractively priced, the AED1024 is a powerful graphics terminal which is completely compatible with the AED 512 and AED 767 terminals. Available as a rack-mounted unit with detachable keyboard and joystick, and an optional 19" LP monitor, (table top version in 120 days), this features the following benefits:

- * 1024 x 768 Viewable Resolution
- * 1024 x 1024 x 8 Virtual Address Space
- * 256 Simultaneous Displayable Colors from a palette of 16.8 million
- * Blue Line Grid
- * Conics Generation, Stipple Fill
- * Anti-Aliasing
- * Tektronix Emulation
- * Downloadable RAM, Expandable ROM
- * User-Defineable Symbols
- * Selectable Cursors
- * Zoom to 16x
- * Color Blink
- * Real Time Scroll & Pan
- * RS232C Ports/Parallel Interface
- * External Sync
- * AED512 & AED767 Compatible
- * Quality, Price, Performance

Third party compatible software is available from the following companies:

Manufacturer -----	Product Name & Application -----
Carnegie Mellon University	"PAINT" Graphics Art, Architectural Renderings, Slide generation, Text & Font requirements
Control Data Corporation	"SYNTHAVISION" Finite Element Modeling, 3D Modeling
Engineering Systems Corp.	"DESIGN GRAPHIX" Mapping, Planning, Electronic Circuit Layout, CAD/CAE
Geo-Based Systems, Inc.	"STRINGS" Architecture, Cartography, Civil Engineering, Education, Forest Inventory, Mining, Municipal Government, Real Estate, Photogrammetry, Resource Mgmt.

Gravitronix	"DATA GENERAL/NOVA ECLIPSE INTERFACE" Color data presentation, Digital Animation, Cartography, Geographic Data Processing, Color Drafting, Circuit Design.
ISSCO	"DISSPLA" Business Graphics
MARC Software International	"MENTAT" CAD/CAE
PDA Engineering	"PATRAN-G" Finite element pre and post processing, composite materials analysis, finite difference analysis, geometric design and CAD.
Precision Visuals	"DI3000" & "GRAFMAKER" Contouring system, Metafile Translator; Mapping/Trend Analysis
U.C. Berkeley	"CAESAR" CAD/CAE
XIPHIAS	"VIDEOGRAPH" TV Production, slide presentation, Animation, Camera ready art.
VLSI Technology	Design synthesis functions, design checking, simulation testing
Bringham Young University	"MOVIE.BYU" Mathematical, Topological, Architectural models
New England Technology	"CAROUSEL" Graphics Arts
SAS Institute	"SAS-GRAPH" Management Information, Charts
Tomark	Business Graphics for MIS
