Compaq ProLiant 2500 Family

The Compaq ProLiant 2500 is the affordable business-critical server for high-performance departmental applications. This server has been designed for departmental and remote office network applications such as Microsoft SQL Server, Novell IntranetWare, and Internet/Intranet solutions. The ProLiant 2500 family features Pentium® Pro processor models for outstanding levels of performance. Through its versatile, innovative design, the ProLiant 2500 provides the ultimate departmental or remote site solution for your customer's evolving business needs.

WHAT'S NEW?

- ▶ New 512 KB cache hot-plug models of the ProLiant 2500 6/200 family-delivering industry-leading performance
- ▶ 64 MB EDO DIMM Memory (standard in 512K models)
- ▶ Integrated Management Display (standard in 512K models)

COMPAQ PROLIANT 2500 FAMILY

KEY FEATURES

- ▶ 200 MHz Pentium Pro Processor models – 512 K cache models for the ultimate performance and 256 K models for lower cost
- ▶ ECC Memory – supports up to 1 GB using industry-standard DIMMs
- ▶ Integrated Management Display – delivers fault tolerant, service and configuration information on an easy-to-use integrated hardware display
- ▶ Integrated Remote Console – delivers seamless remote console and full remote server reboot capabilities with the addition of a modem
- ▶ Integrated Wide-Ultra SCSI Controller – high performance NIC that autosenses both 10 Mb/s and 100 Mb/s
- ▶ SmartStart and 8x CD-ROM Drive – makes configuration and software installation faster, easier and more reliable
- ▶ Compaq Insight Manager – simplifies in-band management of your servers regardless of your network size or location of server
- ▶ Full support for dual processing - scales to 2 Pentium Pro processors for high performance in departmental and Internet/Intranet applications
- ▶ New Server Chassis – improves serviceability and flexibility for rack mounting

BENEFITS AT A GLANCE

- ▶ Next generation performance in affordable departmental server
- ▶ Flexible chassis allows customers to easily and cost effectively convert from tower to rack
- ▶ Integrated Remote Console delivers a low-cost remote console independent of operation system
- ▶ Highly serviceable chassis which allows tool-less and effortless installation of pluggable processor board, I/O board, fans and expansion boards

THE COMPAQ ADVANTAGE

- ▶ Extensive manageability features including Compaq Insight Manager, Integrated Remote Console, support for the Remote Insight Board and the Integrated Management Display- optional on certain models.
- ▶ The Integration Management feature of SmartStart enables the setup of an Integration Server- a network-based repository for tested, approved versions of system software which can be a standalone or a production server.
- ▶ Compaq Info Messenger provides automatic, E-mail notification of new driver revisions, updated software and other important information, personalized for Compaq products deployed in your environment.
- ▶ Versatile, innovative chassis that can easily and inexpensively convert from tower to rack.
- ▶ Powerful tools such as Compaq Counselor and Compaq Rack Builder simplify the system configuration process.
- ▶ Extended Pre-Failure Warranty¹- offers three-year on-site warranty replacement of memory, disk drives, and Pentium Pro processors on servers using Compaq Insight Manager.
- ▶ Three-year On-Site Limited Warranty¹- standard with every Compaq server.
