J4361A – HP Console Switch Cable, 15 Foot

Technical Data

**Product Number
J4361A**

Attaches a server to an HP console switch box

Features

- All wires for mouse, keyboard and video signals enclosed in a single round jacket
- Locking mechanism to prevent accidental disconnects from the console switch
- Order only the number of cables you need (One cable for every port you plan to use).
- Longer length for better cable management

Specifications

- Length: 15'
- Single 25 pin D-Type connector at console switch end
- Standard D-Type high density connector for video
- Standard DIN type connector for keyboard and pointing device

Installation

Plug the large D-Type connector into the console switch at one of the numbered ports. Plug each of the video, keyboard, and pointing device connectors into the appropriate port on the server.

What you get in the box

- 15 foot connecting cable
