Developing cross-platform e-commerce storefront solutions that can be easily integrated into your existing environment can be challenging. *Compaq ActiveAnswers™* helps solve this challenge by providing pre-tested e-business solutions based on Compaq platforms and INTERSHOP software to help you implement easily and more cost-effectively.

Compaq ActiveAnswers solutions for INTERSHOP, a leading provider of e-commerce software, feature advanced merchandising, provisioning, billing and customer care components. These scalable cross-platform e-commerce solutions allow users to quickly deploy e-commerce services with minimal risk to meet their storefront business-to-business and business-to-consumer e-business needs.

How will it make a difference?

Seamless Integration

Compaq and INTERSHOP are working to test and integrate Compaq platforms with INTERSHOP software to ensure seamless integration and interoperability for Microsoft Windows NT®, Compaq Tru64 UNIX and Linux environments. The INTERSHOP product suite supports the Compaq NonStop™ eBusiness Solutions strategy as a dynamic cross-platform e-commerce partner for the implementation of sell-side e-commerce solutions. For example, integrating your Compaq and INTERSHOP solution with a SAP Enterprise Resource Planning (ERP) environment has never been simpler with INTERSHOP Enterprise Edition's ERP cartridges.

Deploy with Confidence

Based on real-world experience and validation in Compaq labs, the recommended configurations offered in the Compaq *ActiveAnswers* solutions for INTERSHOP help reduce the risk and time associated with trial and error implementation, ensuring a smooth installation and integration. You can deploy with confidence knowing that Compaq and INTERSHOP have worked together closely to provide optimized configurations and implementation tools.
